Atmosphere, anywhere

A few years ago, we wondered why there wasn't a better alternative for candles when it came to creating atmosphere. What if there was a cleaner, safer, more sustainable substitute that still created that candlelit ambience?

In response, we joined forces with design studio APE and set out to build a friendly, battery-powered lamp that could provide the same warmth and personality. In late 2019 we launched our first design, the Humble One. Since then we've expanded into to a whole range of cable-free mood lights, from table to wall.

This autumn, we're doubling down on beige with new linen versions of **Two** and **Bee**. We've also listened to your feedback and created an impact-resistant acrylic bulb for the **One**.

Please have a look on the pages of this catalogue for all the lights we have on offer. If we've piqued your interest, feel free to contact us directly via contact@beauagency.com
